BMW M PERFORMANCE FRONT SPLITTER

\$660 - \$1580

The M Performance front splitter is designed to decrease lift in the front of the vehicle and provide a sporty, aggressive look. BMW recommends pairing the front splitter with the M Performance Rear Spoiler for balanced aerodynamics and excellent visual appeal. To ensure proper driving behavior/aerodynamic balance, it is strongly recommended that the rear trunk lid spoiler be installed in conjunction with the front splitter. Two options are available for your choosing: Carbon Fiber for lightweight sportiness or Matte Black which can be painted to your choosing. Please note: The BMW M Performance Splitters are REQUIRED in order to complete the installation of the M Performance front lip.

Note: To ensure proper driving behavior/aerodynamic balance, it is strongly recommended that the rear trunk lid spoiler be installed in conjunction with the front splitter.
